

For entry September 2026

City College Norwich

# Welcome to City College Norwich!

**We are here to support and work with you as you move towards your chosen future. Whatever your aims and aspirations, City College Norwich (CCN) is committed to helping you achieve them.**

At CCN, we put you in control of your future. We offer you the best opportunities to learn and succeed in your course, gain experience of work, and progress beyond college. This could be going on to study for a degree, getting a job and starting your chosen career, securing an Apprenticeship, or simply growing in confidence and independence.

Whether you want to follow an academic pathway or take one of our technical and vocational courses, including our wide range of T Levels, you will find a course at CCN to suit you. If you are unsure about what course is right for you, come and talk to us. Our experienced and friendly course advisers are here to help.

Everything at our college is set up to help you reach your desired destination. We have expert staff who are not only committed teachers but who bring a wealth of industry knowledge into our technical and vocational subject areas. Your learning will take place in superb professional standard facilities, and our strong links with hundreds of local and national employers ensures outstanding preparation for the world of work – with invaluable opportunities for high quality work experience along the way.

We also understand that you want to enjoy your time at college, and CCN is very different to being at school. You will be treated as an adult and given real independence and responsibility for your learning. With an active Students' Union, on-site cafés to socialise in, and a range of extra-curricular activities on offer, there's lots of opportunities to socialise alongside your studies.

If you've not visited us already, we look forward to welcoming you so that you can discover for yourself all that CCN has to offer. We pride ourselves on being an inclusive college, so come and get a feel for what it's like to study here and ask us any questions you may have.

**Jerry White**  
Principal

# Your study options

We understand how important it is to find the best route for you after leaving school. It is important to think about the subjects you enjoy, how you like to learn and where you want to progress to after college.

There are four main options you can choose from after your GCSEs, with different qualifications available to study at each of our campuses at City College Norwich (including our Sixth Form Centre), Paston College and Easton College.

## Which route is for me?

### A Levels

At City College Norwich Sixth Form Centre and Paston College

A Levels are a popular choice for those aiming for university. They provide in-depth study in specific subjects, with students typically choosing three subjects to make up a full-time programme over two years. Each A Level is equivalent to a Level 3 qualification and provides UCAS points. A Levels are assessed by exams.

### T Levels

At City College Norwich, Easton College and Paston College

T Levels blend academic study with practical learning, with a big emphasis on providing in-depth industry experience. They include an industry placement of around 45 days, providing valuable experience in the workplace where employers get early sight of the new talent in their industry. They are equivalent in size to three A Levels, and you will be assessed through a combination of exams and employer-set projects. Many T Level students progress to university or onto higher level apprenticeships.

### Apprenticeships

At City College Norwich and Easton College

An apprenticeship is a job where you will earn, combining work with training and study. You will usually spend one day a week at college and the rest with your employer. Apprenticeships start at Level 2 and go all the way up to degree-level, so you can start straight from school or later in your learning journey. You will need to find an employer to take you on as an apprentice, with many actively hiring, it's a simple step in the process. Find out more about applying for an Apprenticeship on page 50.

### Career-focused qualifications

At City College Norwich, Easton College and Paston College

Technical and vocational qualifications such as BTECs offer a blend of classroom study and practical learning. You will choose one subject to study full time, and each subject focuses on a specific job or employment area, such as health and social care, engineering or hairdressing. The level you start on will depend on the grades you achieve at school. While there may be some written exams, these courses also involve practical assessments, coursework, and work-based evidence.

For some students who are not yet at the stage to access wider college courses or have barriers to learning or employment, alternative routes are also available. These can support you to move into wider college courses, apprenticeships and employment. These include:

### Inclusive Learning and MINT

City College Norwich, Easton College and Paston College

Designed to help you plan for the future and progress onto your chosen next step. Our courses are divided into four pathways to help you settle into college and prepare for living in your community, going out to work or progressing onto further college courses. Find out more on page 36.

### Aspire Skills Academy

City College Norwich

Choose from two pathways where you can either experience taster sessions in your chosen vocational area and prepare to progress to further study, or develop your employability skills and prepare for the world of work. These courses have several enrolment points throughout the year, for more information speak to our Advice and Guidance team.

### Academic Progression

Paston College and City College Norwich

Where you will study new or additional GCSEs to help you develop your skills and gain the grades you need to progress to your chosen pathway the following year. This programme can also support you to retake your English and maths GCSEs if you didn't quite achieve the grades needed. Find out more on page 12.

### English for Speakers of Other Languages

City College Norwich

To help develop your speaking, listening, reading, writing and grammar skills before progressing onto your chosen pathway. Find out more on page 28.

### Need help deciding what to apply for?

Our Advice and Guidance team can talk through all the options with you. Get in touch by emailing [information@ccn.ac.uk](mailto:information@ccn.ac.uk) or call 01603 773773. You can also speak to them at one of our Open Events!

# Three colleges with the widest offer

**Working in collaboration, City College Norwich, Easton College and Paston College offer the widest range of courses across Norfolk. Providing A Levels, technical and vocational qualifications, T Levels, Apprenticeships, degrees and more, our three distinct campuses offer the opportunity for students to learn in the environment most suited to them.**

**Each year we support around 10,000 students, including 1,500 apprentices and 800 learners with an education, health and care plan (EHCP). We pride ourselves on being an inclusive college, led by experienced and specialist staff.**

## Here's a taste of what each of our colleges have to offer:

### **Construction Skills Hub – City College Norwich**

The £4.4 million Construction Skills Hub, opened in March 2025, features two large plumbing and electrical workshops across two floors. Each workshop has 10 practical bays and large central workbenches. The hub plays a key role in training the next generation of electricians and plumbers to meet the growing demand for skilled workers.

### **Digi-Tech Factory – City College Norwich**

A unique facility that is purpose-built for teaching the latest digital skills, from coding and hardware to advanced manufacturing, animation and games design, media production, construction and engineering design.

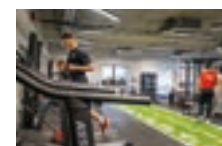

### **Health Wing – City College Norwich**

Our modern hospital ward features lifelike simulators providing healthcare students with opportunities to develop their skills in patient care. The Health Wing also has a 3D anatomy visualisation and virtual dissection table, which is one of very few in the country.

### **Animal Management Centre – Easton College**

Approved as an educational member of the British and Irish Association of Zoos and Aquariums (BIAZA), our centre gives students the chance to work with small mammals, reptiles, birds, and endangered aquatic species.

### **Centre of Excellence for Sport – Easton College**

Following a £1.7m refurbishment, our Sports Centre includes upgraded fitness suites, an outdoor leadership classroom, and a sports performance lab. These complement our Equestrian Centre, 3G pitches, and Tennis Centre with eight indoor hard courts and four European red courts used for international events.

### **Easton Farm and Estate – Easton College**

160 hectares of nature-based teaching space managed with conservation, sustainability and environmental considerations, including a mixed farming system with beef, sheep and cereal production which complement each other.

### **Griffon Theatre – Paston College**

Home to our performing arts and drama courses and The Paston Far East Theatre Company, the Griffon Theatre boasts the latest digital sound, lighting and production technology, a cyclorama and movable seating to enable 'in the round' style theatre.

### **Scarborough Science Centre – Paston College**

Paston College has an outstanding reputation in science. £1.5m was invested into the Scarborough Science Centre to provide students with state-of-the-art facilities and expanded lab space, all built to industry standards.

# About City College Norwich

**Over  
130  
years**

of educational  
excellence since opening  
our doors in 1891

# Academic Progression

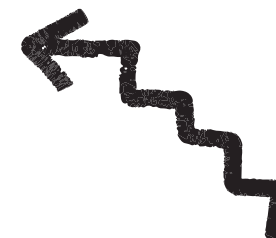

Our Academic Progression courses are designed for students who have finished Year 11 without the GCSE results they hoped for, have not taken GCSEs before or need more GCSEs to progress onto the next level of study

## What you will study

Our Academic Progression Insight course is a one-year programme which allows you to study two or three GCSE subjects including sciences, maths, English and humanities. It is aimed at supporting young people with a physical or mental health consideration or barrier to learning. On top of GCSE learning, your timetable will contain two lessons per week of personal development work to help develop strategies to overcome barriers and support you to progress onto our A Level, vocational or technical courses.

On our Academic Progression GCSE course, you can study three or four GCSEs throughout the one-year programme. The course has been specifically designed to support you if your educational journey has been disrupted, leading to lower GCSE results than you have the potential to achieve. This course will allow you to study GCSEs, gain personal skills or progression to A Level or vocational and technical study.

The aim of our Academic Progression courses is to help you achieve GCSEs at grade 4 or higher, supporting you to progress to our A Level, vocational or technical courses. You will be supported by an experienced and dedicated team in reaching the next steps in your educational journey. There will also be opportunities for educational trips and visits, with previous students visiting a magistrates' court, Houses of Parliament, and the Natural History Museum.

## Courses

### and entry requirements

#### Choose from Academic Progression Insight or Academic Progression GCSEs

If you are taking GCSEs you will need a minimum of grade 3 or above in English language and maths. If you are taking Functional Skills English or ESOL you will need to pass all elements at Level 1 and pass Functional Skills maths at Level 1 or GCSE at grade 3 or above. If you are not studying for these exams you will need to undertake an English and maths assessment

## Where your course can take you

There are several different progression opportunities for students studying our Academic Progression courses. You may wish to study A Levels, explore a vocational or technical qualification, find an Apprenticeship or move into employment after completing your studies at college.

learn more

# Art, Design, Fashion and Photography

Our art, design, fashion and photography courses will develop and explore your creativity, preparing you for a wide range of careers in the creative and cultural sector. Just as practising artists do, you will work collaboratively across multiple disciplines, benefiting from opportunities to develop links with industry professionals and gain an insight into the sector

## What you will study

All our courses are accredited by the University Arts London (UAL) and are taught in our £5.7m purpose-built Creative Arts Building, where you will benefit from state-of-the-art workshops and studio space.

We work closely with local, national and international creative practitioners to create projects that inspire, engage and reflect the evolving creative industry practice. For example, our Architecture and 3D Design students have their work judged by the international architectural firm CLTH to ensure that our course provides the best platform for a career in architecture.

Enrichment is also a key thread that runs through our courses, with regular trips to local and national galleries, performance and exhibition spaces. We also run our annual trip to Florence where you will visit the Palazzo Gucci museum to support your studies.

## Where your course can take you

We are a UAL progression partner and many of our students progress to study at UAL London colleges, including London College of Fashion and Central St Martins. We also work closely with Norwich University of the Arts to provide strong progression routes for those who want to study locally for a degree.

Career routes you could take include architect, costume designer, advertising art director, interior designer and photographic stylist, to name a few.

## Courses

### and entry requirements

#### Art and Design Level 1

Grade 2 or above in a selection of GCSEs including English, maths and preferably an art-related subject

#### Art and Design Level 2

Four GCSEs at grade 3 or above, including English, maths and art and design (or an art-related subject)

#### Art and Design Level 3 (one year)

Grade 4 or above in English, maths and an art-related GCSE

#### Architecture and 3D Design Level 3

Grade 4 or above in English, maths and an art-related GCSE

#### Digital Art and Illustration Level 3

Grade 4 or above in English language, maths and an art-related GCSE

#### Fashion and Textiles Level 3

Grade 4 or above in English language, maths and an art-related GCSE

#### Fine Art Level 3

Grade 4 or above in English language, maths and an art-related GCSE

#### Photography Level 3

Grade 4 or above in English language, maths and an art-related GCSE

## Standout facilities

The entire top floor of our Creative Arts Building consists of interlinked collaborative art studios. You will have access to our print/dye room and fashion and textiles studios for monoprinting, silk, disperse dyes, reverse and regular appliqué, knitting, hand and machine sewing. You will also benefit from a 3D workshop for ceramics, modelling and sculpture, a photographic studio and dark room. All students have access to the full Adobe suite to support your digital skills development.

You will also make use of our £11.4m Digi-Tech Factory, located next door to Creative Arts, where you will develop your digital design and presentation skills, ensuring that you develop the digital skills of the future.

# Automotive

The motor vehicle industry is a cornerstone of the UK economy, driving innovation and providing essential services. With over one million new cars built annually and countless more requiring maintenance, the role of motor vehicle workers is critical in keeping our nation on the move

## What you will study

In recent years, advances in vehicle technology, particularly in electric and hybrid vehicles, have transformed the industry. Our comprehensive curriculum covers everything from motorsport to light vehicle maintenance and the latest in electric and hybrid technologies.

Our courses are designed in collaboration with industry employers, ensuring you acquire the skills needed to excel in various career paths. Whether you're aiming for Higher Education, pursuing vocational routes directly into the industry, or embarking on an apprenticeship, our programmes offer a robust foundation for your professional journey.

Our curriculum begins with foundational skills, health and safety protocols, and the use of essential tools and equipment. You will delve into diagnosing complex faults and understanding advanced systems operations, equipping you with the specialist skills required in the field.

You will also get involved in a range of exciting projects, including working on a formula foundation prototype electric race car, developing a renewable energy charge station, competing in the Student Motorsport Challenge/ City Car Cup and visiting engineering companies and skills shows.

## Courses

### and entry requirements

**Step Into Engineering and Automotive**  
No formal entry requirements

**Automotive Transport Maintenance Level 1 (Pre Apprenticeship)**  
Grade 3 or above in English language and maths

**Automotive Inspections Level 2 (Pre Apprenticeship)**  
Grade 4 or above in English language and maths

**Automotive Maintenance and Repair Level 2 (Pre Apprenticeship)**  
Progression from Automotive Inspections

**T Level in Maintenance, Installation and Repair (Light and Electric Vehicles)**  
Grade 4 in English language, and a grade 5 in maths and science

## Where your course can take you

Our Automotive courses are meticulously designed to equip you with the knowledge, skills, and behaviours essential for success in the motor vehicle industry. As you progress through our course levels, you will be prepared to advance to an Apprenticeship or Higher Education and ultimately excel in your chosen field. You could study HNC Mechanical Engineering through City College Norwich Higher Education.

Our graduates have secured diverse roles with leading employers, including positions such as independent mechanic apprentices, main dealer technician apprentices, workshop managers, parts advisors, and more. Additionally, some have pursued careers within the armed forces, showcasing the broad range of opportunities available to those with a solid foundation in automotive skills.

## Standout facilities

You will gain extensive hands-on experience in our state-of-the-art workshops within the ACE Centre (Advanced Construction and Engineering). You will benefit from fully equipped workshops with the latest training rigs and industry-leading diagnostic, testing and repair equipment for electric vehicles, as well as the electronics systems used in all modern vehicles - including leading specialist equipment for calibrating cameras and other elements of advanced driver assistance systems.

Our sustainable transport workshop compliments our other motor vehicle facilities meaning all students, including those on T Level and Apprenticeship routes, are fully trained to work on any type of vehicle playing a key role in supporting the industry transition to low-and zero-emission vehicles.

QR code to  
learn more

# Business

Our dynamic and comprehensive business courses are designed to equip you with the skills and knowledge needed to excel in today's fast-paced world. Dive into the world of digital marketing or develop your leadership potential ready to take on your own business venture

## What you will study

Our business courses cover everything from foundational principles to advanced strategies. You will learn about finance, entrepreneurship, and global business practices, preparing you to navigate and succeed in the corporate world. Each of our courses are designed with a focus on real-world application, ensuring you gain practical skills through work placements with employers such as Aviva, Norwich City Council and Norse.

Through our marketing course, you will explore digital marketing, consumer behaviour, branding, and market research, supporting you to gain the skills to create compelling marketing campaigns and understand the latest trends and technologies shaping the industry.

If you're interested in a leadership and management route, you will learn about organisational behaviour, strategic planning, and effective team management. These courses are designed to help you become a confident and capable leader in any business environment, supported through insights from guest speakers such as CEOs and business directors.

## Standout facilities

You will learn in our state-of-the-art Digi-Tech Factory equipped with £750,000 worth of the latest computer technology. Our teaching spaces are fitted with 4K interactive touchscreens, high specification PCs, and large screens to simulate the working environments where you will eventually be employed as you step into the world of business.

## Courses

### and entry requirements

**Step Into Creative Media, Business and IT**  
No formal entry requirements

**Business Level 1**  
Three GCSEs at grade 2 or above, including English language and maths

**T Level Foundation Year in Business**  
Five GCSEs at grade 3 or above, including English language and maths

**T Level Foundation Year in Marketing**  
Five GCSEs at grade 3 or above, including English language and maths

**T Level in Management and Administration (Team Leadership and Management)**  
Five GCSEs at grade 4 or above including English language and maths. GCSE business is preferred but not essential. If you have studied business before, this needs to be at a grade 4

**T Level in Management and Administration (Business Support)**  
Five GCSEs at grade 4 or above including English language and maths. GCSE business is preferred but not essential. If you have studied business before, this needs to be at a grade 4

## Where your course can take you

You can progress to the next level at college, move into an Apprenticeship or on completion of your course explore university-level study or employment. Through City College Norwich Higher Education, you can study BA (Hons) Leadership and Management, a Chartered Manager Degree Apprenticeship or Higher Apprenticeship in CMI Operations/Departmental Manager, supporting you to progress close to home.

Careers you could move into include financial analyst, human resources manager, public relations specialist, project manager, digital marketing manager or brand manager.

QR code to  
learn more

# Construction

The construction industry plays a vital role in shaping the world around us - from homes and schools to roads and skyscrapers. Our construction courses are designed to introduce you to the core principles and practical skills needed to succeed in this fast-paced and ever-evolving field

## What you will study

Whether you're interested in becoming a site manager, quantity surveyor, civil engineer, or skilled tradesperson, our courses will equip you with the practical skills, technical knowledge, and industry insight needed for a job in construction.

Our Carpentry and Bricklaying courses start at Level 1 where you will focus on developing your hand skills and technical knowledge including health and safety and principles in construction. On completion, you may progress to Level 2 where you will learn more complex practical tasks such as producing joint masonry and cladding and first fix flooring and roofing.

Our Plumbing and Electrical courses start at Level 2 where you will focus on developing your technical knowledge and practical skills in our Construction Skills Hub. On completion, you may progress to Level 3 to work on more complex practical tasks such as central heating system planning and design and testing and commissioning electrical systems.

For those who are interested in construction but unsure which trade to specialise in, our Multi Skills course allows you to experience a range of trade areas while developing your technical knowledge.

## Standout facilities

You will learn in our industry standard workshops taught by highly experience tutors. Our Construction Skills Hub is a £4.4m purpose-built building split across two floors. Each floor is divided into two large workshops for plumbing and electrical, equipped with bays for practical work, large work benches and an interactive screen.

## Courses

### and entry requirements

#### Construction Multi Skills

No formal entry requirements

#### Bricklaying Level 1

GCSE English language and maths at grade 3 or above

#### Carpentry and Joinery Level 1

GCSE English language and maths at grade 3 or above

#### Bricklaying Level 2

Progression from Level 1 course

#### Carpentry and Joinery Level 2

Progression from Level 1 course

#### Electrical Level 2

GCSE maths at grade 4 or above and English language at grade 3 or above

#### Plumbing Level 2

GCSE English language or maths at grade 4 or above and grade 3 in another subject

#### Electrical Level 3

Progression from Level 2 course

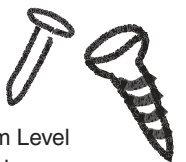

#### Plumbing Level 3

Progression from Level 2 course

#### T Level in Design, Surveying and Planning for Construction

Five GCSEs at grade 4 or above, including English language, science and maths at grade 5 or above

## Where your course can take you

Our construction courses can take you from Level 1 up to degree level, with opportunities to also move into apprenticeships or employment. Through City College Norwich Higher Education, you can study a Higher Apprenticeship in HNC Construction Management or HNC Civil Engineering supporting you to progress close to home.

Careers you could move into include plumber, electrician, construction manager, site supervisor, bricklayer, structural engineer, quantity surveyor, plant operator and many more.

# Digital

Information technology and digital creative are some of the fastest growing sectors in the UK, with digital skills and qualifications in high demand

## What you will study

Stay ahead in the tech world with our cutting-edge courses in digital IT, software development, and software support. From coding and software engineering to IT infrastructure and cybersecurity, our courses provide hands-on experience and practical knowledge to prepare you for a successful career in technology.

Our courses have been designed with employers to ensure you get the skills and experience you need to work in the industry. Our T Level courses include an extended industry placement where you will further develop your skills and apply the knowledge you have learnt in the classroom. Previous students have enjoyed placements with Aviva, Val-U-Computers and Osiris IT, to name a few.

You will also benefit from guest speakers sharing their experiences from industry, including tech innovators and the National Cyber Security Centre, as well as taking part in trips and competitions like the Tech Educators' Hackathon where you will create, code and collaborate!

## Standout facilities

You will learn in our state-of-the-art Digi-Tech Factory equipped with £750,000 worth of the latest computer technology including 340 PCs and 538 monitors specified for a wide range of digital applications ranging from programming to CAD, architectural design, animation, video editing, and virtual reality. The ground floor of the building is dedicated to the practical application of technology in the world of work – with workshops dedicated to electronic control systems, break/fix environments for networking, PC maintenance, and infrastructure engineering.

## Courses

### and entry requirements

**Step Into Creative Media, Business and IT**  
No formal entry requirements

**Digital Level 1**  
Three GCSEs at grade 2 or above including English language and maths

**T Level Foundation Year in Digital**  
Five GCSEs at grade 3 or above including English language and maths

**T Level in Digital Support Services**  
Five GCSEs at grade 4 or above including English language and maths, and if taken computer science at grade 5 or above

**T Level in Digital Software Development**  
Five GCSEs at grade 4 or above including English language. You will also need to have achieved maths at grade 5 or above and, if taken, computer science at grade 5 or above

## Where your course can take you

You can progress to the next level at college, move into an Apprenticeship or on completion of your course explore university-level study or employment. Through City College Norwich Higher Education, you can study HND Digital Technologies - Cyber Security or HND Digital Technologies - Software Development and Programming, supporting you to progress close to home.

Careers you could move into include software engineer, quality assurance engineer, mobile app developer, IT support technician, cybersecurity analyst, systems administrator or network engineer.

# Education, Early Years and Childcare

Welcome to the start of your journey into the education, early years and childcare sector, where you will have the opportunity to work alongside local nurseries and primary schools to develop your understanding of children's care needs, learning opportunities and developmental progression

## What you will study

You will be taught by highly skilled and experienced industry professionals who will provide you with the knowledge, skills and practical experience needed to go directly into paid work or continue into higher education. Topics you will cover will include supporting development and progress, health, safety and wellbeing, safeguarding and protection, promoting positive behaviour, working with parents and professionals, child development theory and pedagogy, special educational needs and disabilities and much more.

Our childcare team are experienced in sourcing local placements in nursery and primary school settings. This will provide you with the opportunity to apply the theoretical knowledge you learn in the classroom in a practical placement experience and, in turn, reflect on how these experiences shape your understanding. You will also benefit from regular guest speakers and community outreach and engagement with organisations and charities supporting children and families in the local area.

## Standout facilities

In addition to your studies at college, you will benefit from our strong partnerships with local employers offering work taster experiences and placements. We have dedicated placement coordinators who will find Norfolk and Suffolk-based work opportunities for you. Your experience in the workplace will be enhanced by our team of experienced teaching staff providing you with the theoretical industry knowledge.

## Courses

### and entry requirements

#### Step Into Childcare

No formal entry requirements

#### Caring for Children Level 1

Three GCSEs at grade 2 or above including English language and maths

#### Early Years Practitioner Level 2

Four GCSEs at grade 3 or above including English language. Maths is also required at grade 2 or above

#### T Level in Education and Early Years (Early Years Educator)

Five GCSEs at grade 4 or above including English language and maths. If you achieve a grade 3 in English language or maths but meet all other requirements at a grade 4 you will be entered onto a three-year programme

#### T Level in Education and Early Years (Assisting Teaching)

Five GCSEs at grade 4 or above including English language and maths. If you achieve a grade 3 in English language or maths but meet all other requirements at a grade 4 you will be entered onto a three-year programme

## Where your course can take you

You could progress onto the next level of college-based study, university, an Apprenticeship or employment. At City College Norwich Higher Education, you can study a BA (Hons) Childhood and Youth Studies degree, BA (Hons) Additional Needs and Disabilities (Children and Young People) degree, BA (Hons) Youth Work or a Youth Worker Degree Apprenticeship.

Career options include becoming a teaching assistant, early years educator, primary school teacher, play therapist, childminder, special educational needs teacher/support worker and many more.

QR code to  
learn more

# Engineering

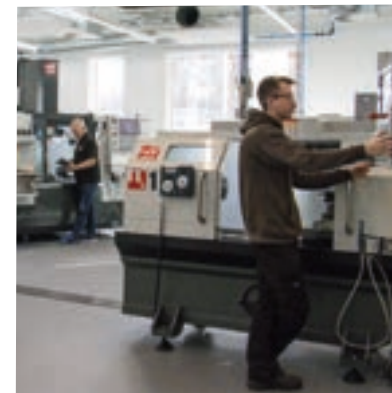

Engineers are integral to the design, manufacture, and maintenance of the technology we rely on, such as: electronic devices, vehicles, aircraft, submarines, buildings, bridges, defence systems, power plants, and renewable energy solutions

## What you will study

Our courses will provide you with a comprehensive foundation in engineering skills and industry knowledge, while allowing you to gain specialised expertise and practical experience in your chosen field. Designed in collaboration with engineering employers, our programmes ensure you acquire the knowledge, skills, and behaviours necessary for a successful engineering career.

Your learning will encompass all aspects of engineering theory and practical skills, ensuring you are fully prepared for your next steps. You will gain an in-depth practical understanding of health and safety legislation, the safe and effective use of tools and materials, hand skills, engineering mathematics and physics, teamwork, the interpretation and use of engineering data, digital skills, and both simple and complex technical systems. Additionally, you will focus on personal and professional development within the engineering field.

You will also be involved with exciting projects such as developing a formula foundation prototype electric race car, developing a renewable energy charge station, competing in the Student Motorsport Challenge/City Car Cup and visiting engineering companies and skills shows.

## Courses

### and entry requirements

**Step Into Engineering and Automotive**  
No formal entry requirements

**Engineering Level 1 (Pre Apprenticeship)**  
Grade 3 or above in English language and maths

**Engineering Level 2 (Pre Apprenticeship)**  
Grade 4 or above in English language and maths

**T Level Foundation Year in Engineering**  
Grade 4 or above in English language and maths

**T Level in Maintenance, Installation and Repair (Mechanical or Mechatronic route)**  
Grade 4 in English language and grade 5 in maths and science

## Where your course can take you

Our engineering courses are designed to equip you with the knowledge, skills, and behaviours needed for success, enabling you to progress through our course levels, advance to an Apprenticeship or Higher Education, and ultimately excel in your chosen field within the industry. You could study HNC Electrical and Electronic Engineering or HNC Mechanical Engineering through City College Norwich Higher Education.

Former students have secured diverse roles with leading employers, including positions as mechanical engineers, aviation mechanics/engineers, engineers in the armed forces, project managers, and more.

## Standout facilities

You will learn in our state-of-the-art ACE Centre (Advanced Construction and Engineering) featuring the latest machinery and tools to train you in the advanced technical skills needed as part of the move to sustainable, low-carbon technologies. Our sustainable transport workshop will allow you to work on electric and hybrid vehicles, using computer aided design suites, and the latest lathes and milling machines. Our mechanical engineering facilities include the machining, diagnostic and testing equipment and tools you will find used in industry - we also have hand fitting workshops to teach the fundamentals of quality component production by hand.

# English for Speakers of Other Languages (ESOL)

Develop your speaking, listening, reading, writing and grammar skills with our ESOL courses, supporting you to progress to wider college courses, training and employment

## What you will study

Our experienced teaching team are skilled in supporting students from across the world to learn English and you will be in classes with other young people from different countries who have different first languages. This is a great opportunity to learn about others and to develop your English together.

You will take part in a range of activities covering different subjects such as health, sport, hobbies, transport and jobs as well as trips away from college to develop your language skills. You will also develop maths and computer skills, and the course will help you to get used to college life and living in the UK.

You will attend college for three days each week, and our team will support you to integrate into education, training, employment and your communities.

## Where your course can take you

You will study ESOL until you have passed Entry Level 3 or Level 1. Once you have progressed to those levels, you may be able to apply to other courses at the college and will be supported with English lessons alongside that course. Following that, you could explore higher-level education or training, or move into a career of your choice.

## Courses

### and entry requirements

**English for Speakers of Other Languages**  
**Pre Entry, Entry Level 1, Entry Level 2, Entry Level 3, and Level 1**

Our team will meet with you before you join the course to test your English skills and put you on the right level for you

## Standout facilities

Most of the classrooms you will study in are dedicated to ESOL lessons and you will also have access to a communal area where you can study quietly, use computers, work in small groups and socialise. We have a variety of board games that many of our students enjoy, as well as spaces to sit and read.

Scan the  
QR code to  
learn more

# Hair and Beauty

Our hairdressing, barbering, beauty therapy and make-up courses will give you the skills and knowledge you need to start a career in this dynamic and creative industry. This diverse sector offers a variety of exciting job opportunities, from traveling the world to working in a salon or running your own business

## What you will study

Through our range of courses, you will gain hands-on experience working with employers and industry brands, all while learning in our on-site specialist training salons. You will be taught by our expert teachers who work with top industry brands such as Dermalogica, Decleor, Wella, GHD and St Tropez, along with make-up brands such as Kryolan, Ben Nye, Crown, Morphe and Derma Colour.

You will take part in trips to national hair and barbering shows and have opportunities to enter hair and beauty competitions across the country, while our media make-up students benefit from events and experiences working with local theatres such as Norwich Theatre Royal, fashion events, TV and media productions. We also welcome in guest speakers to provide insight and knowledge from the industry, including Charlotte Tilbury, Dermalogica, MAC and an ASP colour educator.

## Standout facilities

You will practice your skills in our on-site hair and beauty workshop salons where you will get to grips with the techniques and skills you have learnt before working with clients in our Solutions salon. We welcome paying customers into the salon for a range of services in our treatment room and spa, which also supports the development of your customer service skills. Your assessments will also be carried out in the salon.

Our media make-up students make use of our fantastic make-up artist studio specifically designed to support you to complete your training in hair, make-up artistry, theatrical and SFX techniques.

## Courses

### and entry requirements

#### Step Into Hair and Beauty

Keen interest in the hair and beauty sector

#### Hairdressing Level 1

Three GCSEs at grade 2 or above

#### Barbering Level 2

Four GCSEs at grade 3 or above including English language, maths and ideally one science subject

#### Beauty Therapy Level 2

Four GCSEs at grade 4 or above, including either English language, maths or science

#### Hairdressing Level 2

Four GCSEs at grade 4 or above, with English language and maths at a grade 3 or above

#### Media Make-up Artistry Level 2

Four GCSEs at grade 4 or above including English language and maths

#### Barbering Level 3

Progression from Barbering Level 2

#### Beauty and Spa Therapy Level 3

Progression from Beauty Therapy Level 2

#### Hairdressing Level 3

Progression from Hairdressing Level 2

#### Hair, Media Make-up Artistry, Theatrical and SFX Level 3

Four GCSEs at grade 4 or above, including English language, maths, science and an art or photography subject

## Where your course can take you

You could progress onto higher level study, complete an Apprenticeship or go into employment once you have achieved the required skills and qualifications. In previous years, 85% of our students in this area have progressed onto university to continue their studies.

Your career could take you around the world working as a hairdresser, barber or beautician in hotels, cruise liners or health clubs, or you might like to one day open your own business or work in a salon closer to home. A qualification in hair, beauty or make-up could also see you working in TV, photography or fashion, specialising in areas such as bridal, catwalk or theatre to name a few!

# Health and Social Care

If you have a passion for working with people, helping others to lead healthier lives and supporting them in the challenges they face, then our health and social care courses could be for you. We are dedicated to providing education and training for students who are passionate about making a difference to other people's lives

## What you will study

Our courses are designed to equip you with the knowledge, skills, and experience needed to pursue a variety of rewarding careers in the health and social care sector. Whether you aspire to become a nurse, midwife, paramedic, social worker, mental health professional, special educational needs (SEN) specialist, occupational therapist, or psychologist, our programmes offer a solid foundation to help you achieve your goals.

Upon completion of your course, you will be well-prepared to continue your education at university or to step directly into employment within the health and social care industry. You will study a wide range of topics, including lifespan development, sociology, psychology, anatomy and physiology, understanding specific care needs, and care planning.

Alongside this, you will have opportunities to participate in health promotion campaigns, charity events to raise awareness of relevant issues, attend sector specific visits and listen to exciting guest speakers from industry.

## Standout facilities

Our T Level students have access to our Health Suite, a state-of-the-art facility including fully operational hospital beds, life-size functioning manikins and Anatomage table. This will allow you to carry out simulated health checks and observations as part of your learning and assessment.

## Courses

### and entry requirements

#### Step Into Health and Social Care

No formal entry requirements

#### Health and Social Care Level 1

Three GCSEs at grade 2 or above including English language and maths

#### Health and Social Care Level 2

Four GCSEs at grade 3 or above including English language and maths

#### Health and Social Care Level 3

Five GCSEs at grade 4 or above including English language or maths

#### T Level in Health (Adult Nursing)

Five GCSEs at grade 4 or above including English language and maths at grade 5 and double science at grade 5/5 or above

## Where your course can take you

Our courses will provide you with the knowledge and skills to progress in a variety of rewarding destinations. This could include the next level of college-based study, university, an Apprenticeship or employment. At City College Norwich Higher Education you can study FdSc Health Studies, FdSc Mental Health Practice and two higher apprenticeships in Assistant Practitioner Health Studies and Assistant Practitioner Mental Health Practice.

Career options include becoming a nurse – adult, children's or mental health, midwife, social worker, healthcare assistant, SEN teaching assistant, occupational therapist or counsellor. T Level Health is now a recognised route into medicine offering the potential to pursue a career as a doctor.

# Hospitality and Catering

The hospitality and catering industry is one of the most dynamic and fast-growing sectors, offering a wide range of exciting career opportunities. From fine dining and event management to hotel operations and food service, our courses provide the recipe for success!

## What you will study

Our hospitality and catering courses are delivered in our internationally renowned Hotel School. Known as a leading catering college, you will gain an outstanding introduction to a career in the sector, developing your culinary skills, customer service and creativity working alongside our highly skilled team.

You will develop your practical skills in the preparation and cookery of a range of foods including poultry, bread, vegetarian, meat, soups, hot and cold desserts and pastries, while developing knowledge in food safety, healthy eating and customer service. You will put your skills into practice in our award-winning Debut Restaurant where you will gain experience working front and back of house, preparing and serving meals to paying members of the public.

You will learn about the variety of jobs involved in the industry through our fantastic employer links such as Dunston Hall Hotel, Bread Source, Adnams Brewery, Caister Hall and the Concorde Hotel Group. You will also learn from local restaurants including Benedicts, The Wildebeest Arms and The Ingham Swan, opening opportunities for placements and progression onto an Apprenticeship.

## Courses

### and entry requirements

#### Step Into Hospitality and Catering

Commitment and interest for the hospitality and catering sector

#### Introduction to the Hospitality Industry Entry Level

Minimum of Entry Level 1 in English language and maths (with support for high needs learners)

#### Hospitality and Catering Year 1

GCSEs at grade 2/3 including English language and maths

#### Professional Cookery Level 2

GCSEs at grade 4 and above to include English language and maths

#### Professional Cookery Level 3

Progression from Level 2 course

## Where your course can take you

Our courses can take you into 5\* fine dining in hotels and restaurants, where you could start your career as a commis chef or upon completion of our Level 3 course you could progress to a chef de partie position.

You could also progress onto an Apprenticeship or university-level course if you are keen to specialise and develop hospitality management skills. Employers in the hospitality and catering industry are always looking for well-trained and skilled staff, and thanks to our links with industry employers many of our students progress onto a range of exciting careers in the UK and abroad.

## Standout facilities

You will learn across our five training kitchens, including a dedicated pastry kitchen and bakery, serving lunches and evening meals in our on-site restaurant. Debut Restaurant has once again been 'highly commended' by AA Hotel Services under the AA College Rosette scheme – the highest level a training restaurant can receive. We also have a very busy counter service, cafeteria style operational kitchen called Debut Cafe, where staff and students can purchase hot food, sweet treats and a range of drinks served by our students.

QR code to  
learn more

# Inclusive Learning

Our Inclusive Learning courses are designed to help you plan for the future and to progress onto your chosen next step. Our courses are divided into four pathways, and these are designed to settle you into college and to prepare you for living in your community, going out to work or progressing onto further college courses

## What you will study

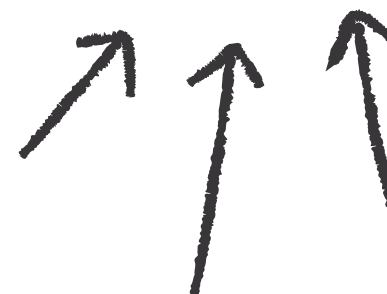

Whatever you're aiming for, we have a variety of courses available to meet your needs and support you to achieve your personal goals across our three campuses at City College Norwich, Easton College and Paston College.

If you join one of our courses, you will most likely be in a group of up to eight students and you will be supported by a teacher and an LSA in the class. Most of our courses are three days a week, but if you are not able to manage this we can arrange for you to have a reduced timetable to help you attend college.

You will work closely with your course tutor who will guide you through your course, set you personal targets and record your progress. If you have an EHCP they will use this to understand your needs and to make sure that you get the support you require to work towards achieving your EHCP outcomes.

Depending on your needs and what you want to do in the future, you may spend your time with us all at one campus or you may progress onto one of our other campuses to continue your learning journey. Your course leader will work with you and your family/carers to make a plan that suits you.

**See the next page for  
our range of Inclusive  
Learning courses**

## Coming to college

We know that the idea of coming to college can be both exciting and worrying and that this is likely to feel like a big next step for you.

We understand that it might take you some time to settle into a new environment and that it can sometimes be challenging to adjust to the changes and new responsibilities that college can bring.

Coming to college is the first step in moving you towards becoming an adult, we will support you to make decisions about your future to gain independence.

## MINT

MINT is our employment service for young people (aged 16 to 25) with additional learning and employment needs. MINT is designed to support young people with barriers to work to gain sustainable and paid employment and operates across all three of our college sites.

Our specialist Employment Job Coaches provide one-to-one support to develop your confidence and employability skills with job applications, interview skills and work experience. They will also help you access training and support you to achieve your potential.

## Find out more

Come and find out more about our courses and how we can support you at one of our Saturday Open Events! We have a dedicated quiet hour which is held the hour before the event opens. You can book your place online in advance through our website.

If you have any questions or would like to arrange a one-to-one visit, you can get in touch with our Inclusive Learning team by emailing [info-inclearning@ccn.ac.uk](mailto:info-inclearning@ccn.ac.uk)

# Media and Games Design

Step into the world of creativity, innovation and storytelling with our specialist media and games design courses which will provide you with the chance to explore your creativity, develop technical skills and build a strong foundation for future study or a career in the creative industries

## What you will study

Get ready to experience a wide range of exciting, hands-on projects all built around real industry practices in creative media and games design. From producing music videos, short films, podcasts and documentaries to developing cross-media campaigns and working in our professional TV studio, as a media student you will gain confidence in storytelling, camera operation, editing and responding to client briefs. At the same time, our games students get the chance to explore the full game development process from concept through to finished product, covering 3D modelling, asset creation, game mechanics and systems design, narrative and level design, UI and audio production.

Our courses are taught by passionate and experienced lecturers who come from industry backgrounds bringing first-hand knowledge, up-to-date skills and valuable insight into what it takes to succeed in the media and games sectors.

You will also benefit from extensive enrichment opportunities, including guest speakers from the creative industries, cinema screenings, trips to exhibitions and industry events and even residential trips to cities like New York, Paris, Barcelona and London. If you're creative, curious and hard working our media and games design courses will give you the platform to turn your passion into a career.

## Standout facilities

Across both subject areas, you will develop practical skills using industry-standard software and equipment all within our purpose-built Creative Arts and Digi-Tech buildings. This includes a TV studio, extensive camera, sound and lighting equipment, Adobe Creative Cloud software, studio spaces with high spec PCs with dual screen set up, NVIDIA RTX graphics cards, MIDI keyboards and RGB lighting, games consoles, a 3D printer and VR Oculus headsets. You will also make use of software such as Unreal Engine 5, Blender, MagicaVoxel, Adobe substance 3D and Piskel.

## Courses

### and entry requirements

**Step Into Creative Media, Business and IT**  
No formal entry requirements

**Creative Media Level 1**  
Three GCSEs at grade 2 or above including English language and maths

**Creative Media Production Level 2**  
Four GCSEs at grade 3 or above including English language

**Games Design Level 2**  
Four GCSEs at grade 3 or above including English language and maths

**Creative Media Production Level 3**  
Five GCSEs at grade 4 or above including English language

**Games Design and Development Level 3**  
Four GCSEs at grade 4 or above including English language, computer science, graphics, media or another related creative discipline

## Where your course can take you

You can move up through the levels at college, move into an Apprenticeship or internship, progress to higher education either locally or at universities across the UK or go straight into the industry.

Students have gone on to work in exciting careers from directors, producers, camera operators and technical engineers (some on blockbuster films) to games designers working in established studios or launching their own independent projects.

Scan the  
QR code to  
learn more

# Performing and Production Arts

Whether you love acting, dancing, music, musical theatre or production arts, we have a course for you! You will thrive in our supportive, challenging and aspirational environment developing the skills and techniques demanded by employers both on and off the stage

## What you will study

Each of our courses has a distinct specialism which will give you the chance to work collaboratively on projects with students from other courses. You will have exclusive access to our state-of-the-art rehearsal spaces with sprung-floored dance studios and a live room recording studio, all housed in our award-winning Creative Arts Building. You will also get the chance to stage and perform in a number of full-scale productions at our on-site Platform Theatre.

Enrichment is a key thread that runs through all our courses, with regular trips to local performance and exhibition spaces. Our T Level students work closely with the internationally renowned Robe Lighting, including an annual trip to their design and manufacturing headquarters in the Czech Republic.

We also have links with Norwich Theatre Royal, Eye Film, Production Bureau and Theatre Craft, with employers such as Eye Film offering mentoring to students, providing real-world work experience to help accelerate your creative career.

## Standout facilities

Our 160-seat Platform Theatre has undergone a £300,000 transformation, including a brand new custom hoist system which surpasses industry standards. It is a dynamic space, with 12 multifunction moving rigging bars which feature the most up-to-date connectivity. Coupled with connectivity at ground level, and industry leading patch system, the new system allows users to install complex and creative lighting, sound and video projects with ease. This makes for the perfect set-up for our college productions!

## Courses

### and entry requirements

#### Music, Performing and Production Arts Level 1

Grade 2 or above in a range of GCSEs including English language, maths and preferably a drama-related subject

#### Dance Level 2

Four GCSEs at grade 3 or above, including English language and maths and preferably a drama-related subject

#### Performing Arts Level 2

Four GCSEs at grade 3 or above, including English language and maths and preferably a drama-related subject

#### Acting Level 3

Grade 4 or above in English language, maths and preferably a drama-related subject

#### Dance Level 3

Grade 4 or above in English, maths and preferably a drama-related subject

#### Music Level 3

Grade 4 or above in English language, maths and preferably a drama-related subject

#### Musical Theatre Level 3

Grade 4 or above in English language, maths and preferably a drama-related subject

#### T Level in Events and Venues Technician Level 3

Grade 4 or above in English language and maths and preferably a drama-related subject

## Where your course can take you

Previous students have progressed onto university-level courses at some of the country's most sought-after drama schools and performing arts colleges. This includes Guildhall School, Royal Welsh College of Music and Drama, East 15 Acting School, LAMDA, Bird College Conservatoire for Dance and Musical Theatre and Rose Bruford College.

Students looking for a different route could also consider a degree apprenticeship in areas such as marketing and events or digital and technology solutions.

Career routes you could take include actor, dancer or musician, screenwriter, production assistant, sound or lighting technician and stage manager, to name a few.

# Sport

The British sports industry is worth £23bn and holds over one million jobs within the UK, with further growth expected. Our sports courses at Easton College will provide you with an understanding of sports coaching, sports development, exercise science, fitness and more. Boost your confidence, improve your health and strengthen your career prospects

## What you will study

Our courses are designed in collaboration with industry professionals. You will receive an education that aligns with the demands of the sports industry, ensuring you are well-prepared for the challenges and opportunities that lie ahead.

You will study a wide range of topics including anatomy and physiology, fitness testing and training, sport leadership, business, sport development and much more. You will be assessed through a variety of methods including assignments, research projects, presentations, role play and group discussions.

Our courses are taught by highly experienced staff who bring a wealth of knowledge and expertise to the classroom. They have practical experience within the industry and are dedicated to helping you succeed. Their guidance, mentorship, and industry insights will enrich your learning journey and provide you with valuable perspectives on the sport profession.

## Where your course can take you

On completion of your course, you could progress to the next level at college or consider an Apprenticeship or degree-level study. At Easton College we offer a BSc (Hons) Sport, Health and Exercise Science degree with three different pathways to choose from depending on your end goal.

Career options include personal trainer, sport nutritionist, sport physiotherapist, physical education teacher or sports coach to name a few.

## Courses

### and entry requirements

#### Sport Level 1

A minimum of three GCSEs at grade 2 or above, including English language and maths, or equivalent

#### Sport Level 2

Four GCSEs at grade 3 or above, including English language and maths

#### Performance and Excellence Level 2

Four GCSEs at grade 3 or above, including English language and maths. You must be performing to a minimum of club level with aspirations to participate at the highest level for your ability

#### Sport Coaching and Development Level 3

Five GCSEs at grade 4 or above including English language and maths

#### Performance and Excellence Level 3

Five GCSEs at grade 4 or above including English language and maths. You must be performing to a minimum of club level with aspirations to participate at the highest level for your ability

#### Sport and Exercise Science Level 3

Five GCSEs at grade 4 or above, including English language and maths

## Standout facilities

We have made substantial investment in our facilities for sport, outdoor leadership, and uniformed services programmes to provide realistic and state-of-the-art facilities to enhance your learning and training.

Our recent £1.7m refurbishment of our Sports Centre includes a fitness studio, sports laboratory, functional fitness room, cardio room, resistance machine room and large café and study area. In addition, we also have a full-size 3G pitch, grass pitches and training areas and a Tennis Centre with eight indoor courts and four outdoor clay courts.

**This course is based at Easton College, for more information visit: [www.easton.ac.uk/sport](http://www.easton.ac.uk/sport)**

# Travel and Tourism

If you're passionate about exploring new places and meeting people from around the world, a career in travel and tourism could be the perfect fit for you. Our courses offer a practical and engaging route into the industry, whether you're interested in international travel, UK-based attractions, hospitality, aviation, or events

## What you will study

Build an exciting and rewarding career in travel and tourism, perfect for those looking to spread your wings and see the world! If you are interested in European and long-haul travel, UK-based tourism and visitor attractions, hospitality operations and working as cabin crew there are plenty of options to explore. If you want to get involved with the business, retail, and the event sector of the industry, then our courses will provide you with the knowledge and skills to achieve your goals.

Our travel and tourism courses are not just about classroom learning, you will have opportunities to visit travel industry organisations such as Haven, Whitlingham, Grand UK Holidays, Norwich Castle and Norwich Airport as well as the chance to take part in residential to France and Spain. You will also complete a work placement in a tourism or hospitality-related environment where you can develop your skills further.

Our expert teachers will provide you with a wealth of practical and relevant experience in dedicated travel and tourism classrooms. We also work closely with the International Aviation Academy at Norwich Airport where you will perform practical assessments on board a Boeing 737 aircraft.

## Courses

### and entry requirements

#### Travel and Tourism Level 2

Four GCSEs at grade 3 or above including English Language and maths

#### Travel and Tourism Level 3

Five GCSEs at grade 4 or above including English language and maths

## Standout facilities

As a travel and tourism student, you will have the opportunity to put your skills into practice at the International Aviation Academy Norwich, where our degree aircraft engineering students complete their training. The aviation academy includes an Emulation Zone with a fully operational Boeing 737, providing you with hands-on experience in a live environment, bridging the gap between classroom learning and real-world application.

## Where your course can take you

The travel and tourism sector continues to grow which means there is a huge demand for a more flexibly skilled workforce. You could progress to study a degree in travel and tourism, or leisure and events management, move into an Apprenticeship or secure employment in roles such as air cabin crew, consultant, resort representative, tour guide and many more.

# A Levels at City College Norwich Sixth Form Centre

Scan the

# Apprenticeships

## Apprenticeships offer great career opportunities, allowing you to earn and learn at the same time

An Apprenticeship is an ideal option if you want to continue learning while working or kickstart your way into employment.

We work with around 800 employers to provide Apprenticeships in hundreds of industries, from the largest employers in the country through to small, ambitious businesses. We work closely with these employers to deliver training both on and off the job. In most cases, you will come into college one day a week, as well as working alongside experienced staff to receive planned training and development with a dedicated workplace mentor.

To become an apprentice you need to be employed in a relevant job role and be given the opportunity to learn new skills which relate to your job and industry.

### Apply for an Apprenticeship

**Research** - Find a sector/industry you are interested in and the types of jobs you would like to do

**Visit** [www.ccn.ac.uk/apprenticeshipvacancies](http://www.ccn.ac.uk/apprenticeshipvacancies) to view our current vacancies

**Apply** - Follow the application process to apply

Can't find a vacancy that interests you? You can also find your own employer to hire you as an apprentice

For more information, visit [www.ccn.ac.uk/find-an-apprenticeship](http://www.ccn.ac.uk/find-an-apprenticeship)

### Benefits

- Gain 'on the job' experience as a paid employee.
- Benefit from 'off the job' training at college to learn new knowledge and skills.
- Gain industry knowledge and skills by meeting standards set by employers.
- Fully funded by your employer and the government so no loans to worry about.
- Opportunities to progress onto advanced, higher or degree Apprenticeships or gain full-time employment.

### Types of Apprenticeships

There are four levels of Apprenticeships you can choose from, and the level you do will depend on your qualifications, experience and the type of industry you will work in.

Type of Apprenticeship	Level	Equivalent educational level
Intermediate	2	Five GCSEs at grades 9 to 4 or A* to C
Advanced	3	Two A Levels /Level 3 Diploma /International Baccalaureate
Higher	4 and 5	HNC, HND, Foundation degree and above
Degree	6 and 7	Bachelor's or Master's degree

Subject	Level	Subject	Level
Accounts and Finance Assistant	2	Healthcare Support Worker	2
Assistant Accountant	3	Higher Apprenticeship Engineering Manufacturing Technician - Mechanical Engineering	4
Autocare Technician	2	Higher Apprenticeship Engineering Manufacturing Technician: Electrical Electronic	4
Bricklayer (Easton College)	2	Hospitality Supervisor	3
Business Administrator	3	CIPD / HR Support	3
Carpentry and Joinery (City College Norwich and Easton College)	2	Information and Communication Technician	3
Chartered Manager	6	Installation and Maintenance Electrician	3
Chef de Partie	3	Land-Based Service Engineer (Easton College)	2
Civil Engineering Technician	3	Land-Based Service Engineering Technician (Easton College)	3
Commis Chef	2	Livestock Unit Technician (Easton College)	3
Construction Management HNC: Construction Site Supervisor	4	Low Carbon Heating Technician (Easton College)	3
Construction Management HNC: Design and Build Technician	4	Motor Vehicle Service and Maintenance Technician: Light Vehicle	3
Craft Carpenter (Easton College)	3	Network Engineer	4
Crop Technician (Easton College)	3	Operations and Departmental Manager	5
Dental Nurse	3	CIPD / People Professional	5
Early Years Educator	3	Plumbing and Domestic Heating Technician	3
Early Years Practitioner	2	Production Chef	2
Engineering Operative: Mechanical/Manufacturing	2	Professional Accounting Technician	4
Engineering Technician: Mechatronic Maintenance Technician	3	Property Maintenance Operative (Easton College)	2

Hair Professional	2	Vet Nursing (Easton College)	3
Healthcare Assistant Practitioner (Health Studies) - Foundation Degree	5	Youth Worker	6
Healthcare Assistant Practitioner (Mental Health Practice) - Foundation Degree	5		

All information is correct at the time of print in August 2025 and subject to change. To see our most current apprenticeship programmes visit: [www.ccn.ac.uk/apprenticeships](http://www.ccn.ac.uk/apprenticeships)

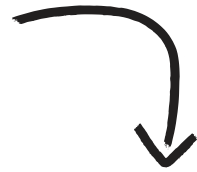

# How to apply

Follow these steps and submit your application on our website: [www.ccn.ac.uk](http://www.ccn.ac.uk)

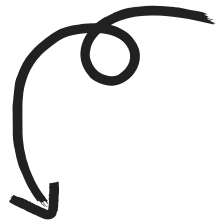

## Step 1 Apply on our Learner Hub

Complete your application online. This will create a college Learner Hub account where you can monitor the progress of your application. Applications open on October 1st 2025, and we recommend applying as early as you can.

## Step 2 Book your interview

You will be invited to attend an interview and/or taster day. Book your interview and/or taster day for your 1st choice course via your Learner Hub account.

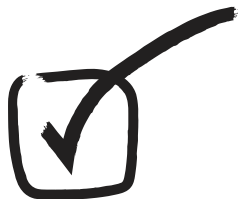

## Step 3 Accept your offer

We will get in touch shortly after you have attended your interview or taster day with an official offer. You will need to sign in to your college Learner Hub account to accept your offer.

## Step 4 Enrol

Enrolment occurs in the last two weeks of August. We will send you an appointment date and time at the start of August. During your appointment, you will meet your tutor, provide details of the qualifications you have achieved, and receive full information about your course.

## Apply early

Our courses fill up quickly! Get your application in early, applications open on October 1st 2025.

## Help You Choose

If you are applying through "Help You Choose" via your school, you will be emailed a link to create your college Learner Hub account. Remember to keep your login details safe as you will need this to monitor your application and book your interview and/or taster day.

## Applying for more than one course?

You will need to book an interview for your first-choice course initially. For a second-choice interview, please contact our Admissions team by emailing [admissions@ccn.ac.uk](mailto:admissions@ccn.ac.uk) or call **01603 773008**. If you have first choice offers from multiple campuses (City College Norwich, Easton or Paston), you will need to choose your main preference by June.

## International students

If you have come to live in the UK from overseas and would like to study at our college, please contact our International Adviser by emailing us at [international@ccn.ac.uk](mailto:international@ccn.ac.uk) or call **+44 (0)1603 773798** for help and guidance on how to apply.

## Interested in Apprenticeships?

Find out more about how to secure an apprenticeship on page 50.

## We are here to support you

Got a question about your application? Get in touch with our Admissions team by emailing [admissions@ccn.ac.uk](mailto:admissions@ccn.ac.uk) or call us on **01603 773008**.

# What will my day look like?

Once you have enrolled in the summer, you will be given your college timetable. We have included some examples to give you an idea of what your study programme will include and how your time will be allocated throughout the week. Please note, these are just an example and all timetables are based on your individual course choices and will be finalised once enrolment is completed

## A typical timetable for a vocational or technical study programme

	9am	10am	11am	12pm	1pm	2pm	3pm	4pm	5pm
Monday	Independent learning and enrichment								
Tuesday	Course Portfolio		Course Practical		Course Tutorial		Independent learning and enrichment		
Wednesday	Maths GCSE		Maths GCSE			Course Practical		Course Practical session	
Thursday	Work experience								
Friday	English GCSE		English GCSE			Course Theory session		Course Tutorial	

Break times

## A typical timetable for a T Level programme

	9am	10am	11am	12pm	1pm	2pm	3pm	4pm	
Monday		Tutorial session			Course Module A		Course Module A		
Tuesday	Course Module B		Course Module B		Tutorial session	Personal development and study session			
Wednesday	Work placement								
Thursday	Tutorial session	Course Module C		Course Module C			Course Module C	Personal development and study session	
Friday	Work placement								

Break times

# College facilities

Scan the  
QR code to  
learn more

**City College Norwich features a state-of-the-art campus equipped with fantastic facilities. These are some of the key resources you may find yourself using on a daily basis.**

## Places to eat

We have a range of places to eat and socialise with friends on our campus. These include our Starbucks and Costa Coffee cafes where you can grab your favourite syrup lattes and iced coffees to set you up for the day. If you're looking for a homemade lunch, Debut Cafe is run by our amazing Hospitality and Catering students offering a daily menu of hot dishes, sandwiches and sweet treats you can eat in or take away. You can also visit The Diner and The Hub open for breakfast, lunch and afternoon snacks you can eat in or takeaway.

Additionally, our campus is home to Debut Restaurant, also run by our Hospitality and Catering staff and students, serving sit-down lunches and dinners from a seasonal menu. The restaurant is open to the public and hosts themed nights and taster menus showcasing the outstanding talent of our students.

## Library and Wellbeing Hub

Our newly refurbished Library and Wellbeing Hub provides students with access to learning resources and study support, flexible study areas, computers, wellbeing services, and multi-faith rooms.

The £1.1m refurbishment was completed in February 2025, with the hub spread across two floors and designed to make our student services accessible, welcoming, and flexible for all students. Our Library and Wellbeing team work within this zone during the day and provide support, triage and signposting.

## Solutions Hair and Beauty

Our Hairdressing, Barbering and Beauty students complete their training in our on-site salon - Solutions - where they offer services and treatments to members of the public. As a student at CCN, you will be able to book in for a range of low-priced treatments. These include haircuts, styling, colouring and strengthening treatments, male grooming services including cutting, hot towel shaves, waxing and perming, and beauty treatments such as facials, massages, nail care, waxing, tanning and tinting.

## Platform Theatre

Our 160-seat Platform Theatre has recently undergone a £300,000 transformation, including a brand new custom hoist system which surpasses industry standards. Students are invited to enjoy a night at the theatre and book tickets to see one of the fantastic dance, drama or musical theatre productions staged by our Performing Arts students.

## Outside spaces

Despite our city centre location, our campus offers a range of green outdoor spaces with picnic tables for you to enjoy your lunch or catch up with friends over break times on those warmer days. These areas are dotted across campus and provide a place to refresh away from the classroom.

# English language

# and maths skills

**English language and maths are the most fundamental skills a young person can have not just for work, but for life. In order to help you achieve success now, and in the future, we will ensure you continue to make progress with these skills throughout your programme of study.**

**Use this guide to find out how English and maths will be built into your studies:**

Whatever grades you achieved in your GCSEs, your programme of study at City College Norwich will include opportunities for you to develop and enhance your English language and maths skills.

You will be supported to reach your full potential in classes that build on your prior attainment.

**4**

**I've achieved grade 4 and above in GCSE English language and/or maths**

You will continue to develop your skills as part of your chosen course(s).

**1-3**

**I've achieved grade 1-3 in GCSE English language and/or maths**

You will take either GCSE or Functional Skills in English language and/or maths

**0**

**I don't have GCSE English language and/or maths**

You will be enrolled onto a GCSE or Functional Skills programme

## GCSE English language

English language and literacy are highly valued skills in both education and employment. It is about being able to effectively communicate, confidently articulate and express your thoughts, as well as actively listening and understanding other viewpoints. Therefore, English skills are an essential part of your programme of study and your future progression plans.

## GCSE maths

Maths and numeracy skills are a central part of your programme of study. It is not just about knowing how to carry out calculations and getting the right answer; it is about improving your skills in recognising problems, finding possible solutions and communicating your reasoning. Therefore, maths skills are an essential part of your future progression in education and employment.

## English language and maths Functional Skills

English language and maths are essential qualifications that give you a range of skills for life. If you have gaps in your subject knowledge that need further development before progressing to GCSEs, then Functional Skills courses are a great starting point. They focus on developing the core skills needed, as well as highlighting the relevance of English language and maths in real life situations.

These qualifications are available at different levels to support your skills development and understanding. They provide a secure foundation to aid progression within both education and employment.

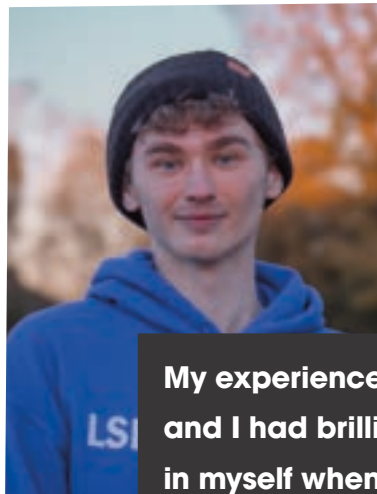

Macie

**The resources my teacher gave me were really useful. I feel confident knowing that I have now achieved my grade 4 and know that it will have a positive impact on my future career**

# Success stories

**Lucas**

## Health and Social Care Level 3

Next steps: Completing a Children and Young People's Nursing degree at the University of East Anglia

My experience was amazing. Everyone was really welcoming, and I had brilliant support from my lecturers. I didn't believe in myself when I first started the course, but I became more confident and was able to challenge myself. I wouldn't be where I am now without their support.

**Violet**

## T Level in Electrotechnical Engineering

Next steps: Progressing to an Apprenticeship with Galliford Try, completing Level 4 Higher National Certificate in Construction Management

I enjoyed learning new skills and meeting new people. I had great opportunities given to me such as my placement, which also helped me learn new skills and developed my understanding within construction.

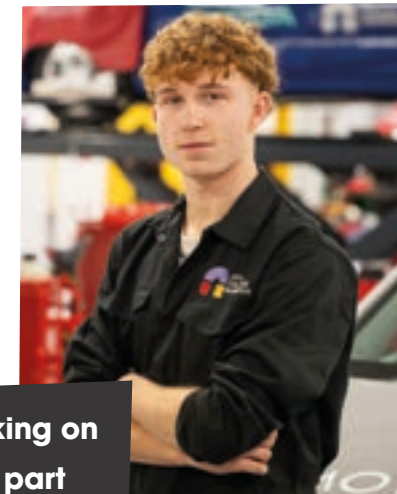

**Ollie**

## T Level Maintenance, Installation and Repair: Light and Electric Vehicles

Next steps: Studying mechanical or automotive engineering at university

My favourite part of the course was working on the cars in the automotive workshop. As part of my placement, I worked on cars at a local garage, applying the skills I learnt at college.

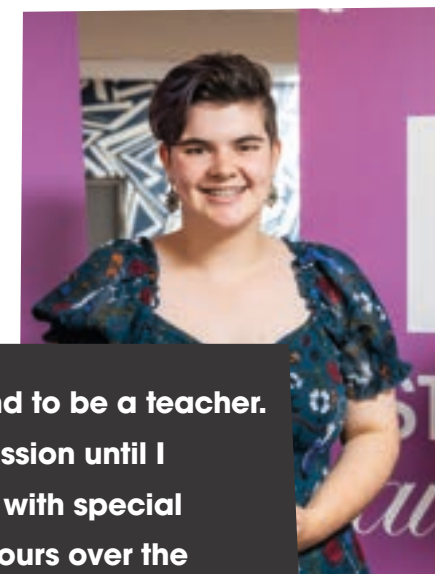

**Isabelle**

## T Level in Education and Early Years

Next steps: Pursuing her passion to become a SEND teacher

I always wanted to work in childcare and to be a teacher. I didn't know that SEND would be my passion until I worked on a summer camp for children with special needs. You have to do 750 placement hours over the entire course, so it's demanding, but the fact that you get so much experience to put on your CV is incredible!

# Supporting your studies

**Our Student Services team are here to provide you with the support and advice you need to focus on your studies and make your time with us as enjoyable as possible. We care about your future, that's why we have a friendly and professional advice team offering information and support on careers, finance, travel and more.**

## The Advice Shop

Through The Advice Shop, we offer expert impartial advice and guidance for anyone considering their career, education and training options.

This free service is available to both our existing students and young people and adults across Norfolk exploring options to study with us. For more information, email [information@ccn.ac.uk](mailto:information@ccn.ac.uk) or call 01603 773773.

## Careers support

**Our qualified careers advisers offer a range of careers services for students, including:**

One-to-one guidance appointments

Help with CV writing

Job and Apprenticeship applications

Interview preparation

Support in applying for both higher education and university

We also run careers fairs and inspirational talks and discussions from local and national employers, to help you prepare for the world of work.

## Finance support

Student funding can seem a complicated and daunting subject and you may not be sure what you are entitled to. Our Student Finance Advisers can provide you with clear, accurate and confidential advice about bursaries and free college meals. You can get in touch with them by emailing [financialadvice@ccn.ac.uk](mailto:financialadvice@ccn.ac.uk).

## Travel advice

Located just outside the city centre, City College Norwich is easily accessed by car, bus or train. And as a student with us, you can enjoy discounted travel from Norfolk County Council, discounts with Greater Anglia and exclusive deals with bus companies, saving you money travelling to and from college.

See page 64 for more information.

## Wellbeing Team

Our Wellbeing Team are here to help you fulfil your potential and maximise your physical and mental wellbeing with free confidential help and guidance for any concerns that you might have during your time with us. They can advise and signpost you to support available for a range of different concerns from mental health to financial worries.

There are a variety of ways in which you can access support at college: from speaking to a member of our team for one-to-one confidential advice and support, to accessing self-help resources through the intranet, and a referral to our specialist wellbeing services like the mental health adviser and college counselling service.

The Wellbeing Team are here to help you thrive in your academic and personal life while at college.

## Curriculum Services

City College Norwich is passionate about supporting students who need additional learning support. Our aim is to ensure you have the information and support to enable participation and help you achieve the best possible education outcomes.

Our Curriculum Services team will assess your needs so we can provide the most effective and appropriate support for you.

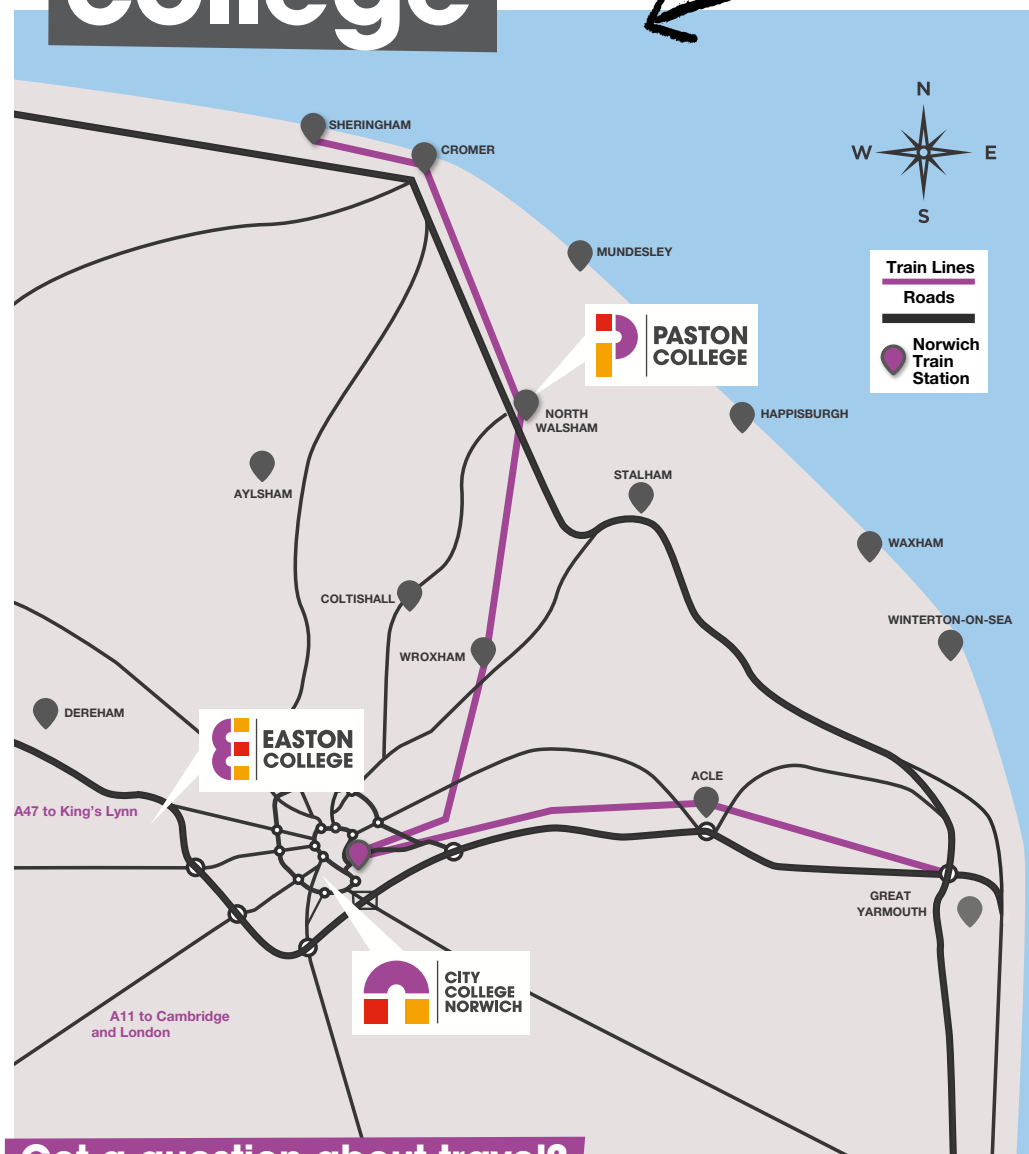

You can contact our Special Educational Needs Team and share your Education Health and Care Plan (EHCP) by emailing [sen@ccn.ac.uk](mailto:sen@ccn.ac.uk). You can also inform us of any support needs you have during exams once you have enrolled.

# Travelling to college

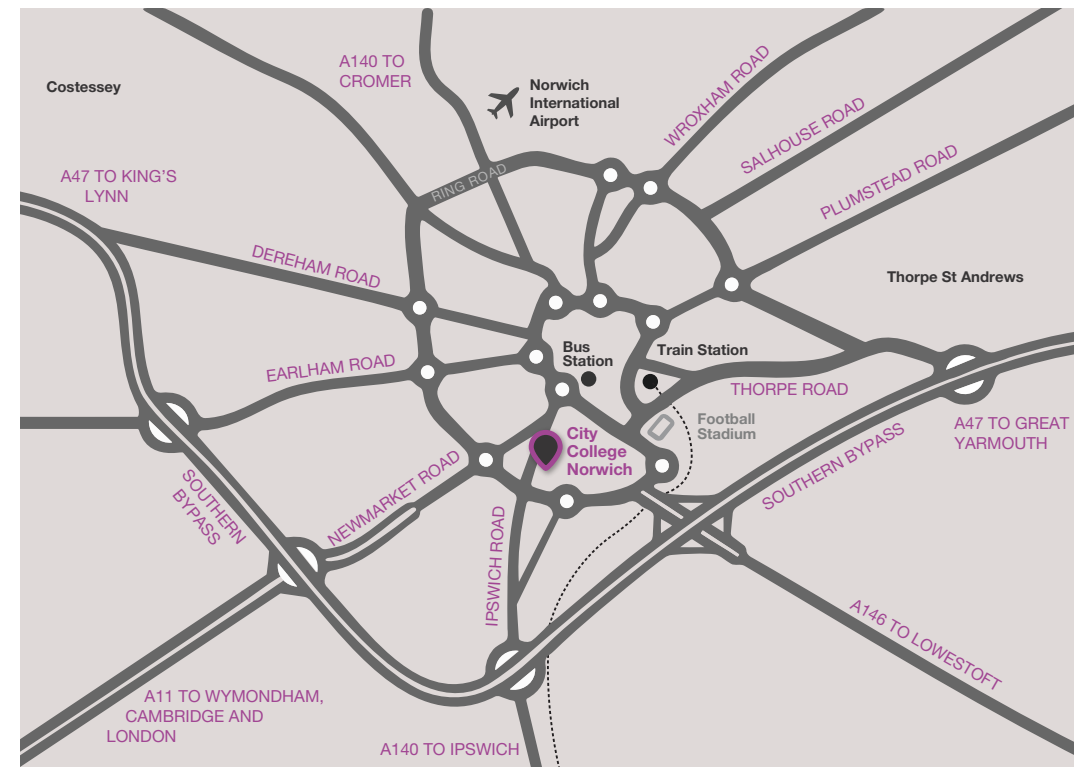

## Got a question about travel?

Get in touch with our Student Transport Officer by calling 01603 773607 or email us at: [citytravel@ccn.ac.uk](mailto:citytravel@ccn.ac.uk)

## Find out more...

For more information on getting to our college visit [www.ccn.ac.uk/travel-guide](http://www.ccn.ac.uk/travel-guide)

**City College** \*  
**Norwich is located on Ipswich Road which is around an eight minute walk from the city centre.**

From the St Stephen's Street roundabout (near the bus station), follow the signs to Ipswich. A few hundred metres south of the roundabout the A11 and A140 divide; take the left fork (A140) and the college is about 300 metres further along on the left.

## By bus

Discounted bus passes are available to all college students. Visit [www.ccn.ac.uk/travel](http://www.ccn.ac.uk/travel) for the most up-to-date prices and to find out more.

## By train

Norwich Train Station is located about 1.5 miles from the college, which takes around 30 minutes to walk. However, both TMS Harford Park and Ride and First Buses operate regular services from the Train Station, St Stephens, and the Norwich Bus Station as well as City College Norwich bus stop. The timetables for First Buses can be found at [www.firstgroup.com/norfolk-suffolk](http://www.firstgroup.com/norfolk-suffolk). For information on travel discounts visit [www.ccn.ac.uk/travel](http://www.ccn.ac.uk/travel).

## Park and Ride

The Park and Ride routes covering our Ipswich Road campus are: Harford Park and Ride, Sprowston Park and Ride Airport and Thickthorn Park and Ride which operate to Newmarket Road/Town Close Road and is a five minute walk. Postwick Park and Ride operates to St Stephens Street in the city centre which is an eight minute walk.

Routes run Monday to Saturday with arrivals in the city before 5:46am. The last bus is around 10pm depending on the site. A Young Person day ticket (up to 20 years of age) is £2. More fares and information is available at [www.simonds.co.uk](http://www.simonds.co.uk).

# Work and industry placements

**Work placements are invaluable temporary positions designed to equip you with essential skills and knowledge in your chosen field. Depending on the course, placements typically range from 30 to 750 hours, providing hands-on experience with employers. While these placements are unpaid, the focus is on learning from industry experts to meet your course requirements**

**During your placement, you will gain key skills such as:**

- **Time management**
- **Teamwork**
- **Problem-solving**
- **Communication**
- **Confidence**
- **Industry experience**

This practical experience will allow you to apply the theoretical knowledge you have learnt in the classroom to dynamic real-world scenarios, significantly enhancing your employability.

While we encourage you to seek out your own placements, our dedicated team is here to support you every step of the way. You will meet this team during enrolment at college, where they will also assist you in preparing for employment through mock interviews and CV development. In addition to gaining experience in the workplace, you may also benefit from site visits, employer talks and networking opportunities.

## T Level industry placements

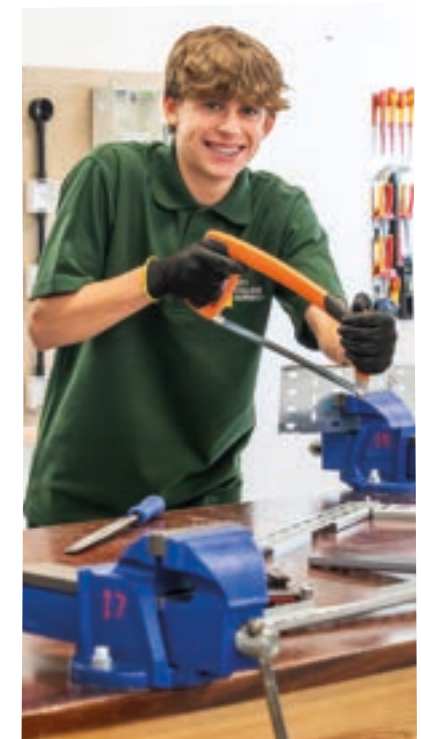

For T Level students, a unique blend of classroom learning and practical 'on-the-job' experience is provided, lasting 315 hours (or 750 hours for childcare specialisations). These placements are designed to impart the necessary knowledge, skills, and experience required for success in the industry or to pursue further study or a higher apprenticeship. As a T Level student, you will be assigned a dedicated Industry and Work Placement Officer to assist in finding a suitable placement aligned with your career aspirations.

## Preparing for your future career

Whether it's pursuing a specific career, seeking a job with incredible opportunities to travel the world, unlocking the possibilities of higher education, or simply developing well-rounded skills while keeping your options open, we are here to help guide you to where you want to be. At City College Norwich, we provide you with much more than just a qualification. Our close collaboration with hundreds of employers ensures you gain the skills and experiences necessary to thrive in your future career.

**Students have completed work experience and placements with companies such as**

- HM Treasury
- KLM Royal Dutch Airlines
- Norfolk Tank Museum
- ATB Lawrence and Scott
- Alpha 7 Motorsport
- 24-7 Motorsport
- Galliford Try
- Norwich Accountancy
- Toyota Norwich
- Renault and Kia Garages
- L and G Engineering

# Student life

## Students' Union

Our Students' Union (SU) plays a key role in the life of the college and represents the voice and interests of all our students. Every student automatically becomes a member of the SU once you have enrolled on your course, and through this you will receive the benefits of membership of the National Union of Students (NUS).

Throughout your time at college, the SU are here to make sure your voice is heard and your experience here is as rewarding and fulfilling as possible. Led by students, the SU advocates for and provides day-to-day support, advice and signposting to sources of support for all our students. The SU is a democratic organisation, with the president elected by students, and provides opportunities for you to represent your peers as a member of the Executive Officer team and at Student Parliament.

The SU organises a regular programme of events for students, including Welcome Week, as well as facilitating student-led enrichment through our clubs and societies.

The SU operates across all our college campuses, and at City College Norwich their desk can be found in the Library and Wellbeing Hub.

## Clubs and societies

Interested in exploring something new, developing a hobby or meeting other students? Our range of clubs and societies provide the perfect place to enjoy college life away from your studies.

At City College Norwich you could join our Music Club, LGBTQ+ Society, take part in five-a-side football or basketball, get creative at the INKspire College Magazine Club or join our Film Appreciation Society.

## Turing Scheme

Each year we are proud to provide fantastic opportunities to send our students around the world through the Turing Scheme. This government programme offers students the chance to gain international experience, develop valuable skills, and broaden horizons - all while exploring new cultures and making lifelong memories.

Most recently, our hospitality and catering students visited Seville in Spain where they worked in cafes, hotels, restaurants and bakeries making and preparing a selection of goodies and local delicacies. Our construction students visited Ayia Napa in Cyprus where they gained valuable work experience carrying out maintenance works at Aktea Beach Village, and our digital, media and business students visited Almada in Portugal where they completed placements with digital and computing companies.

Turing Scheme - Seville, Spain

**Watch what our hospitality and catering students got up to during their Turing Trip!**

# Ways of Working

**As a student at our college, you will be expected to make a commitment to study in-line with our Ways of Working, which our current students and staff strive to put into practice each day.**

**Our Ways of Working play an important part in making our college a place that is welcoming, open and successful, providing a positive experience for students and staff.**

**Kind and Curious**

**Open and Informative**

**Respectful and Fair**

**Collaborative and Inclusive**

**Consistent and Responsible**

# Media Learning Company

## Level 4

Scan the QR code to learn more

**Thinking about a career in media production – whether that's film, TV, radio, animation, photography, or graphic design? Do you have a burning desire to bring your creative ideas to life through any of these media?**

The Media Learning Company offers a unique opportunity to work with like-minded people in a way that mirrors what it is like to work as part of a media production company. This one-year course is very different to other qualifications. While you will be working towards a Level 4 qualification, your day-to-day experience will be much more like having a job than being on a college course.

As a member of the Media Learning Company, you will work collaboratively on a wide range of projects that have been commissioned by external clients. This could include documentary films, attention-grabbing promos, awareness-raising campaigns, podcasts, interviews, and more. You will have plenty of opportunity to develop the skills and creative ideas that you are most interested in, within a vibrant and supportive environment. You will be mentored by industry professionals, including Norwich-based Eye Film and past graduates of the Media Learning Company.

# Adult courses

We offer a variety of courses to support you to upskill in your current industry, retrain to change career direction or learn a new skill or hobby for fun. We also offer employer-led courses for continuous professional development, skills bootcamps and bespoke courses created around the needs of your business. Our courses vary in length and level and take place both in the daytime and evenings.

## English for Speakers of Other Languages

City College Norwich

If English is not your first language and you want to develop your skills in speaking listening, reading, writing and grammar, then our ESOL courses are for you.

## Skills Bootcamps

City College Norwich and Easton College

These free, flexible courses are ideal if you are looking to progress in your current industry, want to change jobs, or if you're self-employed.

## Teacher training

City College Norwich

Our teacher training provision, Norfolk Teacher Training Centre, is the ideal route into teaching. Alongside professional and curriculum training you will spend 120 days in the classroom. Visit: [www.norfolkttc.org.uk](http://www.norfolkttc.org.uk).

## GCSEs and Functional Skills

# Access to Higher Education

Want to study for a degree but don't have the qualifications?

Get to where you want to be with an Access to Higher Education course

Access to Higher Education (HE) courses offer an excellent starting point, helping you gain the skills and qualifications needed to progress to degree-level study and pursue your chosen career. Our Access to Higher Education Diplomas, validated by the Cambridge Access Validating Agency (CAVA), are designed to prepare you for university and beyond.

These flexible Level 3 qualifications are a well-recognised alternative to A Levels, designed with both career progression and employer needs in mind. Many of our diplomas align with Local Skills Improvement Plans and the broader demands of the local economy, preparing you for further study and employment in rapidly developing industries.

You will build study skills through our academic development programme, with guidance from your course leader throughout. Our dedicated Access to HE team will also support your university application, whether you continue your studies with us or apply elsewhere.

## Am I eligible to study?

To study an Access to Higher Education course you need to meet the following criteria:

- Aged 19+
- Have a grade C (grade 4) or above in GCSE English and maths

## Access to Higher Education courses:

Creative Arts

Computing (new for 2026/27)

Engineering

Humanities and Social Sciences

Land-Based Studies (Animal and Countryside Management)

Science (Health)

Access to Higher Education Diplomas get you degree-ready in just one year!

# Connect with City College Norwich

## Explore our website

Our website is your go-to hub for everything you need to know about our college. Whether you're curious about detailed course content, need guidance on financial support, or want answers to practical questions like how to get to campus or where to grab a bite, it's all there.

Take a virtual tour and experience the campus from wherever you are — get a feel for the vibrant student life, modern facilities, and the welcoming atmosphere that makes our college unique.

## Live Chat support

Got questions? We've got answers - in real time.

Our Live Chat feature connects you directly with knowledgeable course advisers who are ready to help with anything from course choices to application tips. Whether you're just starting to explore your options or finalising your plans, we're here to support you every step of the way.

Available directly on our website during business hours.

## Stay connected on social media

Want a glimpse into daily life at college? Follow us on social media to see what our students are up to, get behind-the-scenes campus content, and stay updated on events, deadlines, and announcements.

Join our community and be part of the conversation.

# Open Events and campus tours

If you'd like a real taste of what it's like to study at our college and discover the incredible opportunities we offer, come along to one of our Open Events. Held during the autumn and summer terms, these events are the perfect chance to explore your next steps and see what makes our college special.

## At our Open Events you can:

- Explore your options and find out about courses you are interested in
- Take a tour of our campus and view our industry-standard facilities and equipment
- Speak to students and staff about life at our college and what to expect
- Find out about how to apply and ask about finance, travel and student support

Whether you're in Year 11 and ready to explore your options and submit an application, still deciding on your next steps and looking for guidance, or in Year 10 and eager to get a head start for the year ahead, our Open Events are designed to help you make informed choices about your future and find out how we can support your journey.

Find out more and sign up to one of our Open Events at [www.ccn.ac.uk/openevents](http://www.ccn.ac.uk/openevents)

## Upcoming Open Events

**Friday, 3rd October 2025**  
4pm to 7pm

**Saturday, 4th October 2025**  
10am to 1pm

**Saturday, 20th June 2026**  
10am to 1pm

Can't make it to one of our Open Events? No problem! We're excited to offer campus tours, giving you the chance to explore our college. You will be shown around by one of our friendly Student Ambassadors or a member of our Customer Service Team, who will help you get a real feel for life on campus.

During your visit, you will explore our facilities, check out some of our study spaces, and see what makes our college a great place to learn and grow. Our Advice and Guidance Team will also be on hand to answer any course-specific questions you might have.

Book your tour now at: [www.ccn.ac.uk/campustours](http://www.ccn.ac.uk/campustours)
